Subject: Introduction of D44 Axle Series

In keeping with our continual commitment to deliver product innovation and meet customer demand, Dexter Axle is pleased to announce the introduction of a new 4,400lb. CSA-approved axle series.

Specifications:

4,400# Brake Axle, K-flange, 10 x 2¼" High Performance Electric Brakes, 6 on 5.50 Heavy Duty Hub-Drum, 3" tube, E-Z Lube option available

Minimum Overhang = 12.00" Maximum Overhang = 19.00"

D44 Axle Features:

- Better Braking – 10 x 2¼" high performance CSA-approved electric brake
- Stronger Design – 6 on 5.50, 6-lug hub with 3" tubing vs. 2-3/8" tubing on D35 axles
- Increased Bearing Size – utilizes a larger outer bearing for more durability than D35 axles
- Reduced Weight – the D44 axle weighs 50 lbs. less than a D52 axle
- Cost Effective – adds value to your trailer at a lower cost than D52 axles
- Warranty Protection – backed by Dexter's two-year limited product warranty
