

PRODUCT BULLETIN #494

OBSOLESCENCE OF KODIAK®

RED-EYE BEARING PROTECTORS

April 26, 2024

Dexter has decided to gradually replace the Kodiak® Red-Eye bearing protectors with Trailer Buddy® stainless steel bearing protectors as Red Eye inventory is depleted. Dexter's Trailer Buddy product line also includes bra kits designed to fit over the bearing protector. These vinyl covers help keep water and dirt out of hubs, thus increasing the lifespan of your bearings.

Dexter also offers various other sizes and kit combinations in the Trailer Buddy product line. To explore the complete range of products, visit www.dexteraxle.com/store and click on the grease and oil caps section.
