

PRODUCT BULLETIN #513

NEW MINIMUM OVERHANG 4" DROP SPINDLE FOR D35 AXLES

June 12, 2025

Dexter is pleased to announce a lower minimum overhang when utilizing 4" drop spindles on D35 axles. This new overhang can now achieve a 12.50" minimum overhang that had historically been 14.00". This new minimum overhang will allow trailers to be built utilizing the same hubface and increase the frame width by 1.50" where desired.

D35 WITH 4" DROP SPINDLE PRODUCT SPECIFICATIONS:

- 2-3/8" or 3.00" axle tubing
- Standard grease or E-Z Lube® lubrication options
- Brakes, leaf springs, and wheel mounting options will remain the same as the D35

AXLE MODELS	CAPACITY	MINIMUM OVERHANG
D35 – 4" DROP	UP TO 3,500 LBS.	12.50"

This newly designed drop spindle is currently available.

Please contact your Dexter account manager for additional information and further assistance.
