

# PRODUCT BULLETIN #528 INTRODUCING THE VISTA® SCREEN DOOR

May 7, 2026

Dexter Vent and Door is introducing the all-new Vista Screen Door, a consolidated design that replaces the company's three previous screen door models. The Vista's patented construction delivers improved durability, strength, and functionality compared to standard RV screen doors.

### KEY DESIGN ENHANCEMENTS:

- Molded acrylic corners for increased structural integrity
- Wider T6 C-channel frame for added frame strength
- New kick panel for improved durability
- Updated slider panel with integrated handle for smoother operation
- Redesigned handle for enhanced ergonomics
- Color matched frames with kick panel and slide panel in black or white

### PRODUCT LINE CONSOLIDATION:

The Vista and Vista Prime models will replace the following legacy screen doors: Standard Screen Door, Unified Screen Door, Upgrade Screen Door. Vista Prime Screen Door will be offered standard on the 5055RC, and 5057RC doors. Vista will be available on the 5050RC and 5052RC.
